# ROAD SWEEPERS

## SD Road Sweeper

Spring cleaning is a breeze with the North Star enclosed road sweeper. Use this sweeper to remove dirt, leaves, light snow around your yard and driveway. Can be loader mounted or use your 3 point hitch on your tractor. The sweeper comes with forklift pockets for easy mounting or lifting to move on and off trailers, etc. 3 ways to attach the sweeper are: 3 point hitch, Euro Global loader, or Skid steer loader. The sweeper has a flat mounting bracket so you can make any mounting adapter. Hydraulically driven, this sweeper requires 18-30 liters of flow per minute. The sweeper comes with a removable collector/dump tray. Can also be used without the collector tray for open sweeping.
